

Publicity Permission 2021

Throughout the year there are many occasions, events and activities that we highlight around the school, within the local community and in the media. We also involve the students in school promotional activities that may be shown in various forms of media, such as brochures, advertisements, and the school newsletter and on our website. Your permission is required for your child/children's photograph to appear in such media.

Please note that the use of the student's photographs is subject to strict privacy conditions.

It is a Department requirement that this form be completed each year the student is at Primary School.

In all cases where the student/s image is being used for non-school related publications (e.g. newspapers, magazines, television, promotional materials for organisations), additional written consent will be sought prior to filming/photographing.

I give permission for my child to be photographed/filmed for school publication. Images may be presented on posters, display boards, learning portfolios, the school year book, the school newsletter, televisions and screens within the school grounds and may be published in brochures, street signage, the school website and other online environments.
